

Title	
--------------	--

1. Review

Item	Very Good	Good	With problems	Bad
Does the title clearly reflect its contents?				
Is the abstract sufficiently informative, especially when read in isolation?				
If applicable, are adequate keywords given?				
Is this paper clearly written for a diverse audience of sport scientists?				
Are the references adequate and in agreement with the Guide for Authors?				
Is the organisation of article satisfactory (e.g. no discussion in Results)?				
Is the description of materials and methods adequate?				
Are the results clearly presented?				
Are the discussion and conclusions consistent with the results?				

2. Recommendation to the Editor (choose an option)
